Autobiography

My name is Yuliia. I am 22 years old and I am full of energy. I was born in 1998 in the city Odesa. My father Serhii works with cars. My mother Olha works in the beauty industry. I'm not married, but I have a boyfriend. We want to go to Denmark together, because we both are studying veterinary and want to have a practice.

My height is 170 cm and my weight is 57 kg.

My grandmother and grandfather lived in the village. Every summer I spent with them. They needed my help, because they had a big number of domestic animals. I was glad to do this. I looked after chickens, ducks and pigs, fed them and brought water to them. Also I helped with the garden, where we grew grass for animals and fruit trees. My grandparents didn't sell the products. They were very careful and always brought us the freshest products. After summer in the village I always was full of energy.

When I became adult, I tried to work with my mother. I sold cosmetics. However, it wasn't the job of my dream.

Because of this, in 2018 I decided to get the education that would help me in my future. I entered Agrarian Lyceum, the faculty of veterinary. I'm sure that I made a right choice, because I study with pleasure. Moreover, I know what I will do in the nearest future. Thanks to my education, I had a practice on a training livestock farm. We worked with animals, made food for them and cleaned after them.

I can speak English. I also speak Russian. Ukrainian is my native language.

As for my hobby, I like sport and different types of dance.

Now my boyfriend and I are looking for a new practice. We decided to try to work in Denmark at a pig breeding farm, because it is the best way to improve our skills and make our relationship better. We also think that it is the best way to communicate with international people and improve level of English. We are ready to learn new things.

Regards,

Yuliia
