6. Hobbies and interests	
Football, volleyball, basketball, growing vegetables, work with animals, work on agricultural machinery	
7. Job start date	
As soon as possible	

Autobiography

My name is Oleh. I'm 24 years old. I was born in Berezhany. I have a large family. My father Mykhailo is retired and my mother Lesia is a child educator. I have two sisters, an eldest sister Oksana is a student and a younger Adriana is a schoolgirl. I'm not married.

My height is 191 cm, weight 101 kg

I studied at the secondary school № 1 in town of Berezhany since 2001. I was interested in work training, sports, Physics and Biology. I learned English and German there. I was involved in agriculture since age of 10. My parents have a backyard at home where we grow organic vegetables and fruits for our own consumption and for sale. We grow potatoes, tomatoes, watermelons, carrots, raspberries, strawberries, apples and pears so far.

I worked in Switzerland for 4 months on a horse farm from November 1, 2017 to February 28, 2018, where I fed, watered and looked after the horses, performed minor repairs in terms of household and small repairs of equipment. I also worked on a tractor and forklift there.

In September 2018 I entered the faculty of veterinary of Agrarian Lyceum. Currently I am a student.

In 2019 I had two-month practice on a dairy farm in Switzerland. I was responsible for milking, feeding, looking after sick cows (applying injections, wound treatment using antiseptics, etc) and feeding of calves. Apart from that I was responsible for haymaking (complete cycle), working with mower, tedder, driving the tractor with trailer and performing minor repairs in the household.

I have a driving licence for such vehicle categories as a tractor and a car. I can perform any work on the tractor and forklift, minor repairs of equipment, and small repair works in the household. I work on the tractor and other agricultural vehicles with pleasure. Also, I like to play football and volleyball. Plant growing is one of my interests as well.

The purpose of my internship in Denmark is acquiring new experience and improving my existing experience in terms of animal farming, and improving my skills in work with agricultural machinery. I would like to adopt high standards of farming, meet new people, and learn about the culture of Denmark.

Regards,

Oleh
