Equipment experience	
<b>5. Hobbies and interests</b>	Biology, fitness, animal care, music
<b>6. Job start date</b>	As soon as possible

## Autobiography

---

My name is Nataliia. I'm 22 years old. My family is neither small nor large. My father Serhii works for a construction company as an electrician and my mother Yelena is a biologist.

I'm not married. I have a boyfriend, we have been together for a long time.

My height is 154 cm, weight 50 kg.

I am a rural inhabitant. I like to do physical work and work on the land. Most of all I prefer to work with plants. I have a beautiful orchard near my house and I used to look after it. Every spring I do pruning of branches, fertilize old trees with compost and plant new fruit trees. As I said my mom is a biologist, she taught me how to care for plants properly. She told me a lot about plants and plant care.

In 2018 I started to study in Agrarian lyceum. My profession is an agronomist. To be a true professional, I train a lot. I already had a practice in greenhouses which belong to the lyceum. I was taught how to do planting, transplanting of seedlings, fertilizing of soil, weeding and cleaning.

As for my hobby I like fitness.

Talking about my driving experience, I have a driving licence for cars.

Currently my main goal is to get some practical skills in agronomy. I think working in Denmark will give me a good experience. I would like to work with my boyfriend. We a groupmates and we dream of finding a place for us on a plant farm.

Regards,

Nataliia
