Autobiography

My name is Olena. I was born in Zinkiv. My family consists of my father, sister and me. My father Yurii is 56 years old and my sister Iryna is 29 years old. Our family is very friendly and hard-working.

I live in a private house with some land and a garden. We grow potatoes, corn, beets, cabbage, tomatoes, peppers, apples and many other sorts of plants. We grow vegetables for feeding cow and pigs, and of course for ourselves. There is a lot work about the household, especially in summer seasons. I used to do all kinds of land-based work, and it brings me a lot of pleasure. I even spent several years after school helping my family with all tasks about the household.

From 2003 to 2014 I studied at school №2 in Zinkiv.

I continue my education at the agronomy department of Agrarian lyceum. I was lucky to enter this lyceum in 2018.

I got my first work experience in the sphere of plant care abroad. I worked on the plant farm "Bioobst Görnitz GmbH & Co. KG" in Germany. It was in 2017. During work period I did following activities:

picking strawberries, blueberries, aronia and apples,

sorting,

packaging and classifying of fruits,

care of strawberries, currants, apples, aronia and ornament plants.

I also was in Sweden on the farm "Go Leaf AB", where I picked spinach and did weeding. It was a training period that I got studying in the lyceum.

In my free time I like to walk with my friends. I like to visit new cities and countries, too. I am crazy about listening to music and attending concerts of well-known groups. My positive qualities are punctuality, sociability, physical and psychological endurance.

I can speak English.

For me this practice period in Denmark will give an opportunity to develop in the agrarian sphere, to gain new experience and get practical skills. I would like to work with my boyfriend.

Regards,

Olena
