Driver licence	Car
Equipment experience	
5. Hobbies and interests	Strikeball, paintball, basketball, volleyball, reading books
6. Job start date	05.04.2020

Autobiography

My name is Ihor and I am 22 years old. My family is not large. My father Andrii works for an oil and gas company as an engineer and my mother Yana is an accountant at hospital. I don't have a wife or children. I am dating with Olena, we both are students of Agrarian lyceum.

My height is 192 cm, weight 85 kg.

My main hobby is gardening. I have been fond of plant growing since childhood. My parents have a private house in the village near Poltava, where I spent all summer vacations. Summertime was the best season to practice in agronomy. We grew vegetables and fruit trees, so that I have skills in planting, weeding, fertilizing and watering of plants. I like to spent time working with plants.

My school years were full of unforgivable emotions. I was taught by the best biology teacher I have ever met. After school I got some experience of working as a seller and after that I became a student.

In 2018 I entered Agrarian lyceum and started to study agronomy there. I had some months of practice in the training greenhouse, where I did fertilizing, sorting, pruning and transplanting of plants and seedlings, also worked with soil.

I can drive a car.

I can speak English and I would like to improve my communicative skills in this language.

The purpose of the trip to Denmark is to fulfill my dream. I want to work in a friendly team and get new practical experience in plant growing. I would like to work with my girlfriend Olena.

Regards,

Ihor
