Driver licence	Car
Equipment experience	Car(good)
6. Hobbies and interests	
Hunting, fishing, cars, sport	
7. Job start date	
As soon as possible	

Autobiography

My name is Oleksandr. I am 22 years old. I was born on September 6, 1998 in Zvenyhorodka. I have a small family. My father Yurii is a pensioner and my mother Viktoria is a nurse in dentistry, my younger brother Dmytro is a schoolboy. I'm not married.

My height is 187 cm, weight is 89 kg.

I grew up in a very small township where a lot of people keep their own households. My parents also have some livestock and a garden. We breed chickens, rabbits and some pigs. I always help my family look after the animals. From time to time I help my uncle on the farm, namely in the care of pigs and cows. Also I am engaged in growing the plants. I like staying in nature, so it brought me pleasure.

When I finished school, I didn't know with what profession to connect my life. That's why, I decided to work. For some time I worked for Nova Poshta (delivery company) as a scanning specialist. I worked in Poland in the gardens and in the fields. I took course on the training of reserve officers, which I completed in 2019 with the rank of junior lieutenant. As time went on, I decided to get the agricultural education.

In 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. During the first semester I did the practice on the training farm of the lyceum. I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, cleaning up the stables.

In 2021 till 2022 I had an internship in Denmark on a pig farm. I had such duties, like daily care of animals, feeding, cleaning, disinfecting of stables, inspection of pigs, preparation of pigs for sales, tattooing of pigs before sale, vaccination, washing stables, doing other related work on the farm.

I have a driver's license of category B, C, I also have experience in driving a tractor and working in a field on agricultural machinery. Also I can repair agricultural machinery. I can speak English and Russian. Ukrainian is my native language. As for my hobbies, I am fond of hunting, fishing, cars, sport. I am active and diligent. When I get a task, I try to do it excellent.

Now I'm seeking the opportunity to undertake the long time work in Denmark. Danish agriculture is one of the most advanced ones and I want to get acquainted with its technologies. I would be thankful for the chance to work as a worker on the pig-breeding farm.

Regards,

Oleksandr
