## Autobiography

---

My name is Bohdan. I'm 24 years old. I was born in the beautiful Ukrainian village Porudenko. I have a big family: father, mother and three sisters. My father Bohdan is engaged in housekeeping. He runs a household where we keep pigs, cows with calves, rabbits and poultry. My mother Halyna works as an accountant. I'm single.

I lived in the village since childhood. My acquaintance with agriculture came at a very early age. I always helped my parents in the household. They are the best examples for me because my parents taught me everything they know. I think I like taking care of animals since then.

My work experience is mostly connected with working at the construction. I decided to try myself as a handyman, but it was too unpleasant experience. I realized, that I want to work in the sphere of agriculture.

In 2018 I entered Agrarian lyceum. My future profession is vet. Not so long ago I went to get some practice on a livestock farm that belongs to the lyceum. I spent two months there and gained general skills in feeding, moving animals, mixing food with vitamins, cleaning and disinfecting stables.

I speak English. I also speak Ukrainian, Russian and Polish.

At the expense of my hobby, I like doing sports (football and tennis) and reading books, especially I love scientific literature.

I think the potential of Ukraine is not discovered enough and now agriculture of our country experiences not the best times. Now I'm looking for a place for internship in Denmark to apply my knowledge and experience and get new ones. I think it's the best way to expand my outlook, to communicate with international people.

Regards,

Bohdan
