# Autobiography

---

My name is Yurii. I'm 26 years old. I was born in the village. My native country is Ukraine. I have a big family: father, mother, brother and sisters. My father Stepan is engaged in family farming. My mother Olha works as a seller.

I'm married, my wife's name is Nadiia. We have no children.

In the village, where I was born, my family owns a small farm. We breed pigs, chickens and rabbits. Also there is a beautiful garden where we grow different fruit trees. I love taking care of the welfare of our farm. I am fond of animal care, too. I like to feed animals, give them fresh water and hay, to clean the barn and of course to graze cows on the pasture. I always wanted to be a vet.

My first job was as a taxi driver in a town near my village. I like to drive, but I realized that life in the city is too noisy for me. I decided to make some changes.

I started to obtain veterinary education in 2018. I entered Agrarian lyceum, the faculty of veterinary. In my first year of study, I attended a livestock farm, where I received practical training. I was taught how to take care of animals, do feeding, watering, moving animals and cleaning of stables. I really enjoyed it!

I can speak English. I also speak Ukrainian, Russian and Polish.

I have a driving licence and can drive a car.

My main hobby is hunting. For instance, I like doing sports (football and tennis).

I believe that practical training on the farm in Denmark will enlarge my knowledge and practical skills. I will get very valuable experience necessary for my further professional activity in Ukraine. I would also like to get acquainted with Danish culture and meet new friends.

I would like to work in the livestock sector with my wife.

Regards,

Yurii
