Autobiography

My name is Dmytro. I am 27 years old. I was born in Cherkasy city. I have a standard family which consists of my parents, my younger brother and me. My mom works as an administrator, my dad is retired, my brother is a student. I am not married, but I have a girlfriend. My height is 175 cm, my weight is 80 kg.

My grandparents live in the village all the life and they always have the domestic animals in their household. From my childhood I visit my grandparents very often. From young years I was used to look after dairy goats: it's harvesting and preparing feed for the animals, milking goats and feeding the chickens. I like the animals and always enjoy dealing with them.

When I finished school I undertook the course in IT and after that my jobs were connected with this activity. Also I worked for some period in policing service. A while ago I went to Germany as a seasonal worker on the vegetable farm. My duties were connected with looking after the plants.

In 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. I chose this field as I decided to build my career in stockbreeding. I am going to graduate in 2022. During the first semester of studying I did the practice on the training farm of the lyceum. I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I can speak English well, Russian perfectly and Ukrainian is my native. I have the driving license and can drive a car. Talking about my hobbies, I like cycling, tourism, eSports, public activity.

Now I am looking for the internship in Denmark. I want to get the professional experience which I will be able to use for my professional becoming in Ukraine. I would like to work on the dairy farm together with my girlfriend. I would be thankful for such an opportunity.

Regards,

Dmytro
