# Autobiography

---

My name is Tetiana. I'm 23 years old. I was born and raised in Andrushivka, Zhytomyr region, Ukraine. I don't have a big family. My father's name is Vasyl, he is a programmer. My mother's name is Yuliia. She is a nurse. I have a younger brother. He goes to school. I'm not married. My boyfriend's name is Dmytro, he is in his middle twenties, 25 to be exact.

My height is 176 cm., weight 64 kg.

I live in a private house, so I used to help my mother at home from childhood. We keep different animals and care for the garden, so I helped my family take care of the animals and grow crops.

After school I decided to stay at home and help parents with their work with animals and in the garden. I also worked abroad as a seasonal worker for several seasons. I was in Germany twice. In 2017 I looked after different plants in the greenhouses and picked strawberries. The next year I went to Finland and worked there with vegetables. My next work experience was connected with flower growing. I went for internship to Germany and worked there at a flower farm. I took care of different flowers, did watering and pruning.

I entered Agrarian lyceum in 2018. I study veterinary there. I realized that I like veterinary medicine, and I can't imagine my life without veterinary activity. I have already passed through a practice on a livestock farm. My main duties were feeding and watering animals, moving, cleaning and washing of stables.

I can speak English.

I have a driving license on cars.

My favourite hobby is sport. I enjoy playing volleyball and other games.

My boyfriend and I want to go to Denmark to have a practice together. We both are students of Agrarian lyceum, and we would like to get necessary skills for our future professional activity. We will be very happy to work with cows and milk production.

Regards,

Tetiana
