Driver licence	Car
Equipment experience	
6.Hobbies and interests	Volleyball, football, chess, music, singing, sambo
7.Job start date	01.06.2020

Autobiography

My name is Oksana. I was born in the village of Yablunivka, Ukraine. I weigh 59 kilograms and am 168 cm tall. I am currently not married. I have quite a large family, it consists of my mother and father, three brothers (one older and two younger) and four sisters (one older and 3 younger) and me. My father works as an operator for draining systems, and my mother is a housewife. I love and appreciate my family most of all.

As our family is big, we have a big garden and kitchen garden. We grow a lot of vegetables and fruit. Also we have a flowerbed around our house. My mom looks after it and we help her too.

In 2002 I started studying at a music school in the class of piano. In 2011 I finished my local school in Yablunivka and my studies of piano at the music school. I then continued my education at the high school in Kulishi and at music school in the class of woodwind instruments, primarily the saxophone.

In the summer of 2016 I worked in Germany through the Karls Erlbenis-Dorf Program in the region of Walsdorf, town of Lubek. My main responsibility was to pick strawberries. Afterwards from October of 2016 to April of 2017 I worked in Norway in the region of Ostedal. I worked in a greenhouse with the flowers – I planted hyacinths, crocuses and tulips. Also, our responsibilities included looking after the flowers, performing necessary prep work for the flowers to be sold, including packing. In November of 2017 I again returned to Norway to work at the same company, Tonseth Gartneri, and worked there till March of 2018. I had the same responsibilities, but this time I was also given the responsibility to train new workers from Ukraine because we spoke the same language and I had already worked there before.

In 2019 I went to Sweden to work at the vegetable farm for 5 months. It was salads farm (spinach, arugula, botany, chard). My job was to sow, pick up and pack salads.

In the same 2019 I entered the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. During studying I did the practice on the training farm. My duties included taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

When I have free time, I spend doing active sports, reading, listening to music, and when I have the opportunity to travel I try to take advantage of the opportunity. I speak English well and Russian perfectly. My native language is Ukrainian. I have driving license and can drive a car.

Now I would like to use my knowledge and skills on practice and learn new skills on one of the crop production farms in Denmark. I would like to meet interesting people, gain experience that I will be able to use in the future, as I dream to set up my own farm in Ukraine. For this I don't only need experience and knowledge but also startup capital. But I will do everything my dreams and ideas to come true. And I will be thankful for the opportunity to do the internship in Denmark.

Regards,

Oksana
