Autobiography

My name is Vasyl. I'm 24 years old. I was born in Nadlak village, Kirovohrad region. My family is rather big and consists of my father, my mother, two sisters and me. My father Petro works at a fish factory, he is a handyman, my mother Tetiana works in the state migration service, my sister Kateryna works in a café, she is a waitress and my sister Yuliia studies at school in the 4th grade. I'm not married, but I have a girlfriend.

My height is 192 cm, weight is 89 kg.

As the majority of rural residents, my parents have some domestic animals: geese, ducks, a cow and pigs. I help my parents to manage our household. Mostly I am engaged in looking after the pigs.

When I finished school, I decided to undertake the course in programming. I think it's useful to understand computers nowadays. I got some skills which were handy for me. But to do it as a profession I don't want, as I am used to making something by hands on the open air. My jobs were connected mostly with repairing activities. Also I worked in Poland at the grocery store. There in the warehouse I drove an electric car.

After returning to Ukraine my girlfriend and I came to the mutual decision to set up our own livestock farm in the future. To start with, we entered the Vocational Agrarian Lyceum in 2019. We chose the faculty of veterinary and stockbreeding. In the same year we did the practice on the training farm. During practice I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I can speak English and Polish languages. Also I speak Ukrainian and Russian. As for my hobby I like to play football, volleyball, table tennis. I have a driver's license of category B. Also I have a slight experience of driving a tractor.

I would like to undertake the internship in Denmark because I want to acquaint myself with foreign experience of managing agriculture and develop this sector in Ukraine in the future. I want to work on a pig-breeding farm with my girlfriend, her name is Olena.

Regards,

Vasyl
