Autobiography

My name is Anna. I'm 26 years old. I was born in the village Yareszki, but now live in Zhytomyr. My father Ihor is a farmer, he is engaged in cultivation of grain crops, and my mother Valentyna is a housewife, she helps my father. I am married.

My height is 168 cm, my weight is 61 kg.

When I was a teenager and went to school, I loved studying geography and foreign languages. I also loved playing football with my friends. But since my family is engaged in horticulture, I had to help my parents since childhood. In the process of caring for plants my love for them awoke, and it became my hobby.

In 2011 I finished my studying at school. Then I worked as a secretary in a small firm. After that, I worked as a manager in a trading company. In 2016 my husband and I found an opportunity to get experience of work at farm in Sweden. We worked in greenhouses, grew cucumbers. We cultivated cucumbers with all appropriate tasks: planting, plant caring, harvesting and transplanting.

We decided to get the professional agrarian education when we returned: we entered the Vocational Agrarian Lyceum in 2019 on the faculty of agronomy and horticulture. In the same year we had the practice on the training farm. My duties included taking care of the plants, planting and transplanting, pruning and weeding, fertilizing the soil.

I am still learning English and can speak it satisfactorily. Also I speak Russian perfectly. Ukrainian is my native. I have a driving license and can drive a car. As for my hobby I like sport such as running and cycling.

My husband and I dream to set up our own plant nursery and grow organic fruit and vegetables when we get enough experience for it. That`s why, now we are looking for the internship in Denmark. We would like to get there precious experience, get to know about life style of Danish people. I would like to work on the crop-production farm together with my husband Andrii.

Regards,

Anna.
