Driver licence	Lorry, Car
Equipment experience	
6. Hobbies and interests	
Travelling, running, fitness, photo, auto	
7. Job start date	
20.11.2020	

Autobiography

My name is Andrii. I was born and raised in Ukraine. My native town is Zhytomyr located in Northern Ukraine. I am 28 years old. My family is rather small. My parents are doctors, now they are retired. Grandparents worked as agricultural workers, now they grow apple trees and other tree species. I am married.

My height is 178 cm weight 76 kg.

With horticulture I got acquainted in the village where my grandparents live. There we have a greenhouse, a small plot of land where we grow vegetables, and a big garden where we grow fruit trees.

In 2008 I graduated from school; afterwards I served in the army. When I was out of service, I worked as a seller in a small agricultural company. During 2016-2017, I worked together with my wife in Sweden in Månssons Handelsträdgård in a greenhouse for cultivation of cucumbers. Our responsibilities comprised planting, plant caring, harvesting, transplanting, picking and packaging.

After returning to Ukraine, we weighed options and came to the idea to set up our own plant nursery in future. For that, we decided firstly to get an appropriate education and in 2019 entered the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. In the first semester of studying we did the practice on the training farm where we had such duties as taking care of the plants, planting and transplanting, pruning and weeding, fertilizing the soil.

My native language is Ukrainian. Also I speak Russian and English. I have driving license and can drive cars and lorries. My hobbies include photography, cars, swimming, travelling. My personal qualities: responsible, hardworking and easily trained.

My wife and I intend to realize our goal – to start our plant nursery. But before it, we would like to get enough experience. Denmark is a country with well-developed agriculture, that's why we would like to get acquainted with its instruments and approaches of managing agriculture. I would like to work at crop production farm together with my wife Anna.

Regards,

Andrii
