Equipment experience	
5. Hobbies and interests	Gardening, learning the English language
6. Job start date	As soon as possible

Autobiography

My name is Serhii. I was born in Pereiaslav-Khmelnytskyi town. My family is small, it consists of my parents and me. My father works in forestry, at the sawmill, and my mother works in the kindergarten as an assistant of educator. I am not married, but I have a girlfriend. My height is 183 cm, weight is 75 kg.

From an early age I love nature and everything connected with it. I went to school in 2000 and loved to study. As my family lives on the suburbs of the town, we have a kitchen garden where we grow vegetables and berries, and a garden where we grow fruit trees. Earlier we had also some livestock: we bred pigs. I always helped look after them. Now my parents keep just rabbits and a dairy goat.

After finishing comprehensive school I entered to vocational school where I studied electrical engineering and also received a driving license (A, B, C), so I can drive a car. I had different jobs connected with electrical engineering (as an assistant).

In 2019 I decided to enter the Vocational Agrarian Lyceum. I chose the faculty of veterinary and stockbreeding, as I want to connect my professional future with animal husbandry. We have different practical classes. In addition to it, we did the practice on the training farm. My duties included taking care of the animals, feeding and giving water to them, moving the animals on pasture, washing the stables.

I can speak English and Russian. Ukrainian is my native language. My hobby is connected with gardening, but since recently I got interested in learning languages. Now I am improving English.

I want to develop constantly in my professional activities. Nowadays the world is very fast moving, that's why the development is necessary if one wants to keep up with innovative world. I would like to understand on practice how the Danish agriculture is organized. That's why I would be thankful for the opportunity to work as a trainee on the animal farm. I want to work together with my girlfriend Viktoriia.

Regards,

Serhii
