Other language(s)	English - Satisfactory, Russian - Perfect
Driver licence	
Equipment experience	
5. Hobbies and interests	Animals, cooking, listening to music, reading books
6. Job start date	As soon as possible

Autobiography

My name is Ruslana. I'm 27 years old. I was born in the village Butsyn. I want to tell you a few words about my family. I have a small family. I have got mother and brother. My mother is a teacher of music. She works in the school. She likes her profession. My younger brother Andrii is twenty years old. He is a student. He studies at the University of Physical education. His future profession is a fitness-trainer. I'm not married. My height is 164 cm, weight 60 is kg.

I live in the village and during my childhood I helped my family around the household. We have pigs and a cow. My parents taught me how to take care of the domestic animals. I feed our animals, give water and clean up after them.

In the last form I didn't fix upon the future profession, but in order not to waste time I took the course which trained secretaries. After finishing it I worked in the agricultural department of my village council as a secretary. Also I worked for some period at the factories in Poland and the Czech Republic.

During period of working there I got interested in agriculture and decided to get education in it. That's why, in 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. There we can apply our theoretical knowledge on practice: we did the practice on the training farm of the lyceum. I had such responsibilities as taking care of the animals, feeding and giving water to them, moving the animals, cleaning up after them.

I studied English at school and with a tutor and now I can speak and understand it on the satisfactory level. Also I speak Russian and Ukrainian (the last is my native). As for my interests, I like riding a bike, cooking, listening to music, watching TV and spending time with animals (I have lovely pets: cat and dog).

A lot of students of my lyceum went to work as trainees to Denmark and they are glad that they got very valuable experience. Their feedbacks inspired me to find the opportunity of doing internship in Denmark where agriculture is on the high level. That's why, now I am looking for the internship in this country to employ my knowledge in practice and get new experience. I would like to work on the animal farm.

Regards,

Ruslana
