Autobiography

My name is Serhii. I am 23 years old. I was born in the east of Ukraine in the small town of Dobropillia, but we live in Bilozerske. I have a small family. My mom Tetiana is engaged in housekeeping. My stepfather Ihor is a builder, now he is building farms. I'm not married.

My height is 173. My weight is 71.

From the very childhood I was hardworking. My grandmother lives in the neighboring village and manages her own household; she is engaged in animal husbandry: pigs, hens and turkeys. Also she has a cow: we make cottage cheese and sour cream for our family. I was always happy to help my grandmother with the housework. Now mostly my parents help my granny with domestic animals, but when I come to my native town, I always do it too.

When I finished school, I decided to take the practical course in construction. After finishing it I worked on the construction sites. Also I went to work in Germany twice. The first time I worked in the sphere of agriculture: built greenhouses, picked berries and vegetables. The other time I went to work in logistics at the DHL post office.

In 2018 I already knew what specialization I would like to get. That's why, in 2019 I got ready and entered the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. Studying there is interesting and useful, as we apply theoretical knowledge on practice. For instance, I did the practice on the training farm where I did such activities as taking care of the animals, feeding and giving water to them, moving the animals, cleaning up the stables.

I can speak English and Russian. My native language is Ukrainian. I have a driving license and can drive a car. My personal qualities and hobbies: I really love to play football, go to the gym and run. From childhood I went in for sports. I read interesting books about psychology, economics, and self-development. I am an optimistic, hardworking, responsible person. I love to travel very much, I always wanted to visit Scandinavia.

My goal of travelling to Denmark is to get experience in my professional activities. It is very important to develop and move forward. I believe that in Denmark I will be able to expand my both professional and personal horizons. I would like to work on the pig-breeding farm.

Regards,

Serhii
