Autobiography

My name is Serhii. I am 22 years old. I was born in Uman. I have a small family which consists of my parents and me. My mom works at a vitamin factory. My father works as a car driver and he does passenger transportation. I am not married. My height is 187 cm, my weight is 88.

I have the experience of looking after the pigs in the village where my grandma and some my relatives live. Every time when I come to her, I help with preparing food for animals, feeding them and cleaning up after them.

In 2019 I decided to get the education in agriculture and entered the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. During studying I had some practice. For instance, in the first semester of studying I did the practice on the training farm of the lyceum. My responsibilities included taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

Now I am learning English intensively. I can speak Russian fluently. My native language is Ukrainian. I have the driving license and can drive a car. As for my hobbies I like to play sports and spend time with friends.

I am sure that learning by doing is very effective and it helps in becoming a professional. I want to get as much agricultural experience as possible. That`s why I am looking for the vacancy for the intern on the pig-breeding farm in Denmark. I would be thankful for such an opportunity.

Regards,

Serhii
