| Driver licence | |
| Equipment experience | |
| 5. Hobbies and interests | Painting, reading |
| 6. Job start date | As soon as possible |

Autobiography

My name is Viktoriia. I was born in Ukraine in small village Byryne. My family is a traditional one. I have a father, a mother and a grandmother. I have neither brothers nor sisters. Mom is a housewife, formerly an accountant. My father is an agronomist by education. Granny is retired. They now live in the village, keep the housework (pigs, cows, chickens). I have never been married, but I have a boyfriend. I don't have children.

I studied in Byrynska secondary school in 2000-2011. I was an excellent pupil. When I lived with my parents I always helped manage our garden and livestock. That's why farming is not something new for me.

When I graduated from the school, I started working as a waitress, later I worked as an administrator. In some years I went to Slovakia and worked there at the plant for one year. After that I worked in Germany at the plant too. I missed my old life and at one moment I decided to connect my life with agriculture and to follow the steps of my father.

In 2019 I entered the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. I don't regret about it, because studying is interesting and practically oriented. In the first semester I undertook the practice on the training farm of the lyceum. My responsibilities included taking care of the animals, feeding and giving water to them, moving the animals on the pasture, washing the stables.

I can speak English well. My Russian is fluent and Ukrainian is native. In my spare time I like painting, reading books, surfing the Internet, walking and self-development.

Now I am looking for the opportunity to do the internship in Denmark. This is the country with well-developed agriculture and surely there is a lot to learn from. I would like to work on the animal farm together with my boyfriend Serhii.

Regards,

Viktoriiia
