Autobiography

My name is Vitalii. I was born in the city of Kyiv. I am 26 years old, my height is 187 cm, weight is 76. I grew up in a small family. My father was engaged in the field of transportation, my mother worked in the field of construction. I also have an older sister who works as a HR manager. I am married, but do not have children yet.

Although I was born in a big place, I grew up with my grandmother in the village who had a household: a cow, pigs, chickens and ducks. There was also a kitchen garden where we grew various vegetables. Every summer from the end of spring to the beginning of autumn I was with her and helped her in everything.

As one of my hobbies is cooking, after secondary school I went to cooking school where I chose the course in confectionary. I got culinary abilities there and worked in this sphere for some period. Also my wife Halyna and I went to work in Germany at a meat factory. After several years of doing different jobs in Ukraine and abroad, I decided to change my profession and entered the agricultural lyceum.

In 2019 I became a student of the Vocational Agrarian Lyceum, the faculty of the veterinary and stockbreeding. I like studying there and doing practice. For instance, I did the practice on the farm of our lyceum which is aimed at getting practical skills by students. My duties comprised taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I can speak English and Russian. Ukrainian is my mother tongue. I like to go in for sports, jogging in the morning. I often ride a bike in the woods. I don't like spending a lot of time in a big city. I have a driver's license of category "B" and can drive a car.

My wife and I want to gain new experience abroad on a dairy farm in Denmark, get professional knowledge and skills, meet like-minded people and get acquainted with the Scandinavian lifestyle. We will appreciate such an opportunity.

Regards,

Vitalii
