Other language(s)	English - Elementary, Russian - Perfect
Driver licence	Car
Equipment experience	
5. Hobbies and interests	Sports, running, cycling, snowboarding, swimming
6. Job start date	As soon as possible

Autobiography

My name is Halyna. I am 26 years old, height is 165 cm, weight is 60 kg. I was born in Ukraine in the city of Smila. I grew up in a small family. My father works as a truck driver. My mother has a small furniture business. I'm married, but don't have children yet.

I am used to the farm work, because from childhood I spent a lot of weekends and holidays at my grandparents'. There I had many cousins and we always were looking forward for seeing each other. When we got elder, we started helping our grandparents around the household. There were cows, chickens, ducks and pigs in the barn. I fed the animals and cleaned after them.

After school, I studied at a food technology school. When I graduated, I moved to Kyiv and worked in the hotel and restaurant business. Also I went to work to Poland together with my husband at the meat factory. In some years we decided to change the field of activity and entered the agricultural lyceum.

I was enrolled as a student in the Vocational Agrarian Lyceum in 2019 and will study there to 2022. I have chosen the faculty of veterinary and stockbreeding. We learn theoretical subjects and have practical tutorials. I did the practice on the training farm of my lyceum where I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I can speak English and Russian. Ukrainian is my native language. I have a driver's license and can drive a car. Almost every day I go to the gym, I like to spend time there with benefit for my health.

I would like to find the opportunity to work as a trainee together with my husband on the Danish dairy farm. Denmark is a progressive state with well-developed agricultural sector. That's why, I am sure there is a lot for us to learn.

Regards,

Halyna
