## Autobiography

---

My name is Roman. I am 19 years old. I was born in Dobrovelyckivka. I am not married and don't have children. My family includes my parents, sister and me. My mom is a housewife. My father works in Russia. My sister recently returned from Denmark where she worked on the farm and temporarily is unemployed. My height is 185 cm, weight is 85 kg.

I live in village from childhood and I know how to take care about different kinds of animals, for example about - pigs, cows, chicken, ducks, dogs and cats. I know how feed, water, brush and clean up after animals. I have an experience in caring about animals, as my family manages the household.

In 2019 I was enrolled as a student in the Vocational Agrarian Lyceum. My faculty is of veterinary and stockbreeding. My studying is exciting as we have different interesting activities in the lyceum. In the first semester of studying I did the practice on the training farm of my lyceum. I did such activities as taking care of the animals, feeding and giving water to them, moving the animals, cleaning up the stables.

I am learning English and can already speak it a bit. I speak Russian fluently. My native language is Ukrainian. Talking about my hobbies I am fond of sport, especially of football, and drawing.

Now I am looking for practice abroad to get a new experience and knowledge. I would like not to give up developing and improve myself as a specialist. I am sure that the internship in Denmark will help me move forward. I would like to work on the animal farm.

Regards,

Roman.
