Driver licence	Car
Equipment experience	
<b>6. Hobbies and interests</b>	Watching TV shows and reading books in English
<b>7. Job start date</b>	As soon as possible

# Autobiography

---

My name is Olena. I'm 29 years old. I was born on in township Yampil, Sumy region. I have a family of 4: this is mom, dad, younger brother and me. Mom works as a seamstress all her life, and dad works as an electrician. My younger brother lives with parents. After college he works as a carpenter making furniture for sale. Now I live separately from my family, but I visit them regularly, as I love them very much. I'm not married, but have a boyfriend.

I like to work in garden, because when I was a kid I got my first experience at agriculture in my family's household. My family lives in a private house with a plenty of land and I always helped my parents with gardening. Besides garden, my father has a cow, a lot of rabbits, chickens, ducks and pigs. I was involved in feeding them.

When I finished school, I passed the course in Organization Management and Administration. After that I was an office worker. I worked in Yampil Administration as a secretary. After that I worked at the "Nova poshta" (the biggest delivery company in Ukraine). I got position – a head of department. My responsibilities included monitoring the work of all cashiers, monitoring collection, working with archives.

I got tired of such kind of work and decided to change the occupation completely. In 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. In the first year of studying I did the professional practice on the training farm of my lyceum. My duties were connected with taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

This summer I did the internship at the tobacco farm in Germany. The farm has 20.3 hectares of fields, it is located in the municipality of Kottensdorf, near Nuremberg, Bavaria. I have worked with tobacco from the moment it ripens in the field to the moment it is put in a truck and ready to be sold. I participated in many tasks in this area, immediately understood the key processes and became a very reliable person in this area. My boss could trust me to do this process correctly and maintain the quality at the proper level.

I can speak Ukrainian, Russian and English. I have the driving license and can drive a car. I have a lot of hobbies, such as growing flowers and working in the garden. Also, I have a large collection of postcards from different years. I like to watch TV shows and read books in English. It helps me with language learning. I like sport, especially fitness and swimming.

I want to get more experience in horticulture working with modern technologies. It will help me develop my professional outlook and become a good specialist in the future. I would like to work on the flower farm or nursery in Denmark.

Regards,

Olena
