# Autobiography

---

My name is Serhii. I'm 24 years old. I was born in Vinnytsia, Ukraine. I have a big family. My father Maksym is a wooden furniture maker, my mother Anna is a bank worker and I have two brothers Mykhailo and Mykyta – they are students. I'm not married.

My height is 180 cm, weight is 65 kg.

Since childhood I've always helped my family to work in our garden. My grandparents have a big garden in a village not far from the city, and my parents, brothers and I go to help them every summer. In our garden we grow different fruit trees and vegetables. My grandparents taught me to plant, water and weed.

After graduating from school, I tried my hand in different kinds of work until I understood that most of all I am close to agriculture. That's why I decided to get an education in this field.

In 2019 I started to study in Novoselytsia Agrarian Lyceum on the faculty of agronomy and horticulture. During my studying at the lyceum I have had training practice on the special farm intended for students to improve practical skills. There I was responsible for taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil. I am going to graduate in 2022.

I have good English language. Also I speak Ukrainian and Russian. I have a driving license and can drive a car. As for my hobby I like sport, especially team kinds of sport like football and volleyball. I consider myself a sociable and friendly person.

The best way to expand my outlook and to gain better professional skills is internship on a farm abroad. I would like to work as a trainee on the crop-production farm in Denmark. I believe that in Danish agriculture there is a lot to learn from.

Regards,

Serhii
