Autobiography

My name is Yaroslav. I'm 22 years old. I was born in Pidhoroddia. My family is big. I have mother, father, younger sister and older brother. My mother is a medical worker. My father works as a driver. I'm not married. My height is 172 cm, weight is 73 kg.

Since childhood I help my parents with the household where we always have some animals. As my parents have jobs, I together with my brother and sister look after pigs and chickens, when mom and dad are at work. Also we help our grandparents who live not far from us and keep a cow and poultry.

After finishing school I worked as a workman on the construction sites. But I didn't want to continue working in this sphere. I made up mind to try my hand in agriculture.

That's why, I entered the Vocational Agrarian Lyceum in 2019. I have chosen the faculty of veterinary and stockbreeding. I wasn't mistaken when I chose this occupation, because I like studying there. Moreover, I had the practice on the training farm where I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

Now I am in the process of learning English, so I can speak it. Also I speak Russian. Ukrainian is my native language. As for my hobby I like playing football, cycling, riding a motorcycle and travelling.

The aim of internship in Denmark is to expand my both professional and personal outlook, to communicate with like-minded people and get useful experience on advanced farm. I would like to work as a trainee on the pig-breeding farm together with Svitlana Cherniak.

Regards,

Yaroslav.
