Driver licence	Car
Equipment experience	
<b>5. Hobbies and interests</b>	Sports, fishing, music, travelling.
<b>6. Job start date</b>	As soon as possible

# Autobiography

---

---

My name is Dmytro. I live in the township called as Cherniakhiv. I am 25 years old. I have a big family. My father works as an electrician, my mother works at a car factory, my sister goes to school and plays volleyball, my retired grandmother loves to read books.

I did sports from school, took part in many competitions. I liked the English lessons, from school I enjoyed working with animals, during the Biology lessons we were studying animals, these were my favorite lessons.

We have several domestic animals at our household such as a cow, ducks, chickens, rabbits, and I always helped my parents from an early age: mowed the grass, fed our animals, grazed a cow, I liked to observe them growing up.

When I finished school I decided to gain some experience and started working in different temporary places. After several years of finding myself I made the conclusion that farming is the best option. But I decided that to become a professionalist I need to get both education and experience.

I searched for educational options in Ukraine and chose the Vocational Agrarian Lyceum in Khmelnytsk region. In 2019 I entered on the faculty of veterinary and stockbreeding. During the first semester of studying I did the practice on the training farm of my lyceum where I had such responsibilities as taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I am learning English now and can already speak it, but I continue improving it. Also I speak Russian. Ukrainian is my native. As for my hobbies I am interested in sports, fishing, music, travelling. I have the driving license and can drive a car.

Now I want to go to Denmark in order to gain experience in animal husbandry. This will contribute to forming my professional competence. I would like to get acquainted with the way Danish farmers manage their farms and I would be grateful for the opportunity to work as a trainee on the dairy farm.

Regards,

Dmytro
