Driver licence	Car, Lorry
Equipment experience	Car(good), Lorry(good)
5. Hobbies and interests	Watching TV, films, repairing machines
6. Job start date	As soon as possible

Autobiography

My name is Mykhailo. I'm 21 years old. I was born in Vinnytsia region, Ukraine. I come from the family which consists of my parents, older sister and me. My mother Oksana works as a laboratory assistant. My father Valerii works as an electrician. My older sister's name is Mariia. I am not married, but I have a girlfriend.

My height is 178 cm, weight is 75 kg.

I was born in the village. All my childhood I dealt with cows and pigs, as my grandparents always kept some livestock. I know how to clean, feed and take care of them. My parents have rabbits and chickens, so I also know how to take care of them.

After finishing school I took the course which was aimed at preparing mechanics. There I learnt how to repair technical equipment. For some time I worked in the auto repair shop as an assistant of mechanic. But once I decided that I would like to connect my life with agriculture much more.

For this reason in 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. Studying comes easy for me as I am acquainted with this field. Most of all I like practical tutorials. I did the practice on the training farm together with other students. Our duties included taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

As I liked learning English at school, I can speak this language, but don't stop improving it. My mother tongue is Ukrainian and Russian is on the level as my native language. As for my hobby, I like sport, watching films, listening to music.

Now my aim is to get as much experience as possible and to get acquainted with agricultural technologies of foreign farmers. I am sure that it will help me become a good specialist in future. That's why I am seeking the internship in Denmark. I would like to work with my girlfriend on the livestock farm.

Regards,

Mykhailo
