Equipment experience	
<b>6. Hobbies and interests</b>	Volleyball, basketball, table tennis, heavy metal music, fantastic films
<b>7. Job start date</b>	As soon as possible

# Autobiography

---

My name is Hryhorii Burbeliuk. I'm 28 years old. I was born in Hraniv. I have a small family. My father Mykola works at hospital, he is pharmacist and my mother Larysa is a housewife. Also I have an older brother. I'm not married.

My height is 181 cm, weight is 80 kg.

From my childhood I often helped my parents around their household. I seeded, planted, looked after, harvested potatoes, tomatoes, corn, beets on our small field. Also I helped my parents to feed, brush and clean up after animals. I am used to this kind of work and moreover I like it.

At school I liked to learn Biology and Geography. They were my favorite subjects and I was good in it. I liked learning English too. Mostly I listened to a lot of songs in English to improve my level.

When I finished school, I tried my hands in different professions, but most of all my heart was in agriculture. For this reason, I decided to get proper education and build my career in this field.

In 2019 I became a student of the Vocational Agrarian Lyceum. I chose the faculty of agronomy and horticulture, because at home I always got much more pleasure when I worked in the garden. During the first semester of studying I together with my groupmates had the practice. There is a special training farm of the lyceum where agronomists are trained to look after the plants and stock-breeders – to look after the animals. My duties were: taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

From May 2020 to August 2020 I worked as a seasonal worker on the berries farm in Finland. There I planted, weeded and picked up strawberries. Also we collected peas, potatoes on the other areas. After our main work I went to the forest to pick up blueberries. I worked for 3 months.

I have a good English language. Also I speak Ukrainian and Russian. Now I am studying at a driving school and I will obtain a driving license soon. In my free time I watch films, listen to music, play table tennis, basketball and volleyball with my friends. In the past I trained in the gym.

Now I'm looking for a long-term internship in Denmark to apply my knowledge and experience and surely get new ones which will contribute to my professional becoming. I think it's the best way to expand my both professional and personal outlook, communicate with like-minded people.

Regards,

Hryhorii
