Autobiography

My name is Yuliia. I'm 21 years old. I was born in Berdychiv. I have a small family. My family consists of four people: my mother, father, older sister and me. My mother's name is Lesia. She works as a cook. My father's name is Ihor. He works as an engineer at a big plant. My sister's name is Inna. She works as a fitness trainer. I'm not married, but have a boyfriend.

Since childhood, my parents always sent me on summer vacation to my grandparents in the village. I spent a lot of time there, loved to help them with the household. They had two cows, rabbits, chickens in the barn. I looked for them, fed and cleaned after them.

When I finished school, I worked for some period as an administrative. But the more I worked on this position, the more I was realizing that I wanted to have more active work. I liked helping my grandparents with the household, so I made up my mind to try myself in this specialization.

In 2019 I was enrolled as a student in the Vocational Agrarian Lyceum in Khmelnytsk region. My choice fell on the faculty of veterinary and stockbreeding. I have already had the practice on the training farm which is provided by our educational establishment. My duties included taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I can speak English and Russian. Ukrainian is my native language. I have a driving license and can drive a car. My favorite hobby is reading books. It is the significant part of my everyday life. I have a big home library. There you can find works of different authors and genres. Also I am fond of playing football, playing volleyball, riding a bike.

Now I am looking for an internship in Denmark to gain experience and new knowledge. I think this is the best way to expand your worldview and communicate with international people. I would like to work on the dairy farm together with my boyfriend Serhii.

Best regards,

Yuliia
