Driver licence	Car
Equipment experience	
<b>5. Hobbies and interests</b>	Reading books, playing football and tennis, listening to music
<b>6. Job start date</b>	As soon as possible

# Autobiography

---

My name is Serhii. I'm 26 years old. I was born in Zhytomyr. I have a small family which consists of four people: my mother, father, older brother and me. My mother Svitlana works as a seller. My father Serhii works as a driver. My brother's name is Petro. He works as a teacher. I'm not married, but have a girlfriend.

My height is 175 cm, weight is 70 kg.

Since childhood I studied in a rural school. There I became interested in sports, namely football and table tennis. At school I started learning English. My favorite lesson was Biology.

I love animals and plants. My parents noticed it and were sure that I would become a vet or an agronomist in future. My family has a big household. We cultivate the land, grow fruit and vegetables and keep a cow, pigs and poultry. From being a child I helped my parents both with garden and with livestock.

When I finished school, I didn't go to agricultural school, to my parents' surprise. I passed the course in telecommunication technologies. After that I tried myself in several different jobs, but wasn't satisfied. At that moment I decided to follow my passion and to get the agricultural education.

In 2019 I entered the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. We combine learning theory and training skills on practice. In the first semester of studying I had the practice on the training farm of the lyceum. I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I speak English satisfactorily and Russian perfectly. My native language is Ukrainian. I have a driving license and can drive a car. As for my hobby I like sport, especially team kinds of sport like football and volleyball. Also I like reading the books.

Now I am eager to get the international experience of working on the dairy farm in Denmark. I think that experience in this sphere is very important for professional becoming. I would be grateful for the opportunity to work as a trainee on Danish farm together with my girlfriend Yuliia. I would like to get acquainted with Danish agricultural technologies and farming in general and adopt them in future in Ukraine.

Regards,

Serhii
