Other language(s)	English - Good, Russian - Perfect
Driver licence	
Equipment experience	
5. Hobbies and interests	Music, board games, books, sport games
6. Job start date	As soon as possible

Autobiography

My name is Illia Ivanov and I am 29 years old. I was born in 1991 in a small town called Komsomolsk (now it is renamed as Horishni Plavni). My family includes me, my parents and my cat who's name is Ulf. My father works as a driver at ambulance. My mother doesn't work at the moment. I am not married.

My height is 173 cm, my weight is 87.

In childhood I very often visited my relatives who live in a village. They had the household: the kitchen garden where they grew different plants and the barn where they kept two cows, chickens and rabbits. When I came to them, I together with my cousins helped look after the domestic animals and the kitchen garden.

After school I tried myself in getting a job of a blacksmith. After this I was working as a loader, as a slinger, as an instructor on lasertag arena and many other jobs. Not for a long time I was working with horses as a member of a historical fight club. For some period of time I worked with children. Also I worked as a manager at Nova Poshta Ukraine. It's a big delivery company. Recently I decided to change something in my life. I tried to get the education and become a veterinary.

In 2019 I entered the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. From that time I had some practical trainings. One of them was held on the training farm of the lyceum. During that practice I had such duties as taking care of the animals, feeding and giving water to them, moving the animals, washing the animals.

I have good English and perfect Russian. My native language is Ukrainian. Because of work I almost have no time for my hobbies, but sometimes I still play games, write stories, try to write songs.

Now I hope to go for a practice to Denmark, because I can get there the real new experience and knowledge in the profession I am mastering. Denmark is famous for its well-developed agriculture, so I am sure that it is a pattern to follow. I want to work with cows and calves on the dairy farm. I would be thankful for chance to get familiar with Danish farming and lifestyle.

Regards,

Illia
