Driver licence	
Equipment experience	
<b>6. Hobbies and interests</b>	Sports, drawing, being in nature, learning languages
<b>7. Job start date</b>	As soon as possible

# Autobiography

---

My name is Khrystyna. I'm 27 years old and I was born in northern-eastern Ukrainian city Sumy. My family consists of my parents and me. I am the only child in my family, but I have a lot of cousins and we are very close with them. My mother is an administrator in the shop and my father is an operator at the plant. I'm not married. My height is 170 cm and weight is 62 kg.

I inherited love for plants from my mother. She always enjoys gardening in the village where my relatives live. We go there often to see our relatives and help them with the household. I always was engaged in gardening together with my mom.

After school I worked as a shop-assistant in the gardening shop and as a waitress in the coffee shops. But eventually I came to the conclusion that to be happy, a person should do what he or she likes, and decided to get the education in agronomy.

In 2019 I became a student of the Vocational Agrarian Lyceum. I chose surely the faculty of agronomy and horticulture. I enjoy studying there. We have a lot of practical lessons. In the first semester we had the practice on the training farm which belongs to our lyceum. My responsibilities comprised taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

This summer I have had the short-term practice on the crop farm in Finland. I picked strawberries. Also we picked wild berries and mushrooms in the forest.

As for my hobby I like playing sports, badminton and tennis, beach volleyball, drawing, being in nature, learning languages. I have rather good English. Also I speak Russian fluently. Ukrainian is my native.

I'm looking for an internship in Denmark, because I think it's very useful to get international experience in my professional field and to expand the outlook. I would like to get acquainted with Danish approaches to managing agriculture. I want to work on the crop production farm.

Regards,

Khrystyna
