## Autobiography

---

My name is Oleksandra. I'm 27 years old. I was born in a town near Kyiv – Irpin. I have a small family which consists of my parents, my dog and me. Also I have a boyfriend. Now my parents do not work, they are pensioners. But before my mother was a hospital worker and my father was a military man.

My height is 172 cm, my weight is 68 kg.

I will tell a little about my school years. I went to school with intensive studying of foreign languages. As far back as school time I became interested in flower design. I did handcrafted items of artificial flowers and showed my works at school fair. While studying in high school I even made some money on this craft. My love to gardening was promoted by my grandmother. She lives in the village and I visit her very often.

After graduation in 2011 year I started attending the course in accounting in the special school. After that I worked in travel agency for several years. The last place of work was in Germany, Munich in logistic company «ITG». When I returned I decided to get an education in agronomy and connect my professional life with it.

In 2019 I entered the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. During studying we have a lot of practical lessons. In the first semester I did the practice on the training farm of my lyceum. My duties included taking care of the plants, planting and transplanting, pruning and weeding, fertilizing the soil.

I can speak English and Russian. Ukrainian is my native. My hobbies are connected with floristics, travelling, doing sport, learning languages, cooking, driving a car. I have the driving license and can drive a car.

My goal of travelling to Denmark is to take practice and get new professional skills and knowledge. I dream to set up together with my boyfriend the flower nursery in Ukraine. Before it I need to get as much experience as possible. I would like to work on the plant farm with my boyfriend Sviatoslav.

We are ready to start practice at any time.

Regards,

Oleksandra
