Autobiography

My name is Sviatoslav. I'm 24 years old. I was born in the small town of Horodnia, Chernihiv region. I am Ukrainian by nationality and have Ukrainian citizenship. I have a big family: my parents, older brother and sister and me. Also I have a girlfriend.

My height is 185 cm, weight is 90 kg.

My childhood was connected with agronomy, because when my parents had some plots of land in the village where my grandparents live, we went there very often, cultivated the land and grew vegetables and fruit.

In 2002-2013 years I studied at Horodnia Secondary School, received a complete general secondary education. At school time I studied at the School of Arts in the class "Vocal" (received a diploma in music education) and attended the boxing section at FST "Dynamo".

After school I underwent full military training at the military department at Yaroslav Mudryi National Law University and received the primary military rank of "Junior Lieutenant of the Reserve."

Together with my girlfriend I worked in logistic company «ITG» in Germany, Munich.

In 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. I liked to work on land, that's why I decided to choose this profession. I like studying there, especially I like practice: I had a practice on the training farm where I was responsible for taking care of the plants, planting and transplanting, pruning and weeding, fertilizing the soil.

I speak English satisfactorily and Russian perfectly, but I continue developing my English. My mother tongue is Ukrainian. In 2016, I got a driver's license of category B in the city of Kharkiv. I adore driving. Also I like travelling, doing sport, listening to music and singing songs.

Now I am looking for the opportunity to pass the practice on the modern farm in Denmark and get valuable skills and knowledge in my profession on practice. I would like to work as a trainee on the plant farm together with my girlfriend Oleksandra.

Regards,

Sviatoslav.
