| <b>7. Job start date</b>                              | As soon as possible  |

# Autobiography

---

My name is Roman. I am 28 years old. I was born on the 29th of October. My family is rather small. My father Anatolii works as an ambulance driver. My mother Larysa works as a land surveyor in the administration. I am not married, but I have a bride.

My height is 186 cm, weight is 90 kg.

Since childhood I spent a lot of time in the village where my grandparents live. There they have some land where they grow vegetables and fruit. I always helped them look after the garden: I planted, weeded, pruned, harvested the crops. I became interested in agriculture at that moment.

From November 2018 to January 2019 I worked at a bakery in the Czech Republic. There I was doing different jobs: packing and packaging of bakery products, baking bread and stuff. In 2019 I worked on a plant farm in the Czech Republic. There I was picking vegetables and fruits. When I returned, I decided to build my career in the sphere of agronomy. That's why I made up my mind to get the appropriate education.

In 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. During studying in the first semester I had the practice on the training farm of the lyceum where I had such duties as taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

From July 2020 to November 2020 I had an internship on a plant farm in Great Britain. There I was picking different kinds of fruit.

I have good level of the English language and advanced level of Russian. Ukrainian is my native language. Talking about my hobby I like to play volleyball when I have free time.

I would like to upgrade my skills and knowledge in agronomy on the modern plant farm in Denmark. That's why I am looking for the internship in this country. I would be thankful for such an opportunity. I want to work on the crop-production farm together with my bride Liudmyla.

Regards,

Roman
