Other language(s)	English - Satisfactory, Russian - Perfect
Driver licence	
Equipment experience	
6. Hobbies and interests	Volleyball
7. Job start date	As soon as possible

Autobiography

My name is Liudmyla. I am 23 years old. My birthday is on 4th of April, 1997 in the village of Miliach. My family consists of four people. My father Ivan is a pensioner, my mother Natalia is a housewife, my sister Svitlana is a nurse. I am unmarried, but I have a fiancé.

My height is 178, my weight is 69.

I was born in a village, so I have been able to work in the garden and in the household since childhood. I live in a village and my family has a large area of land. We grow our own products because we have a lot of land, for example: potatoes, carrots, beets, onions, greens, cucumbers, tomatoes, cabbage, strawberries, zucchini, pumpkins etc. I like to take care of plants, harvest.

Before I became a student, several times I went abroad to work on the plant farms. From June 2016 to August 2016 I worked on a plant farm in Germany. I harvested and packed strawberries. In 2017 I returned to the same farm and worked there from the beginning of June to July. For winter months I went to Belarus twice to a plant farm. There I picked cucumbers and sorted potatoes. In 2019, I worked in the Czech Republic at a bakery. My responsibilities included the packaging of bakery products.

In 2019 I entered the Vocational Agrarian Lyceum as I decided that I would like to get education in agriculture and become a good specialist. My choice fell on the faculty of agronomy and horticulture. During studying in the first semester I had the practice on the training farm of the lyceum where I had such duties as taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

From July 2020 to November 2020 I did the practice on a plant farm in the UK. I collected different types of fruit, such as raspberries, blackberries, strawberries, cherries, blueberries.

I have a satisfactory level of English, I also speak Ukrainian and Russian. I really love plants and everything connected with them. What concerns my hobby, I am fond of volleyball.

I have already been to different countries on crop farms. But most of all I would like to go to Denmark and gain there new experience which will help me in my professional becoming. Denmark is famous for its modern approaches to agriculture. I would like to work on the crop-production farm together with my fiancé Roman.

Regards,

Liudmyla
