Mother tongue	Ukrainian
Other language(s)	English - Elementary, Russian - Perfect
Driver licence	
Equipment experience	
5. Hobbies and interests	Playing football, love animals, travelling around Europe
6. Job start date	As soon as possible

Autobiography

My name is Oleksandr. I am 29 years old. I was born on 13th of October, 1991 in the city of Zhytomyr. My family is very small. I live with my father. My mother died in 2017. Father works as a security guard. I don't have my own family: 6 years ago I divorced my wife. My height is 178cm, weight is 78 kg.

From young years I visited my grandparents who live in the village not far from our city. When they were younger, they kept a large household which consisted of a big spot of land and domestic animals such as two cows, some pigs and poultry. I always helped work around the household. My grandparents taught me how to perform basic agricultural duties.

When I graduated from the secondary school, I entered the Zhytomyr automobile and highway college. But while studying there I understood that it was not my vocation. After graduation I went to live in Kyiv, where I was working as a manager for 2 years.

For a long time I had a dream to take a trip to Europe. In 2019 I fulfilled my dream and visited Spain. When I returned, I found a job in Poland at a factory. When I finished work on the factory, I found a job in agriculture: my duties included picking up cucumbers, picking apples on the farm. I didn't stop travelling and for several years I have visited 12 European countries. At that time I understood that I would like to get an agricultural education and make career in this field.

In 2019 I became a student of the Vocational Agrarian Lyceum in Khmelnytsk region on the faculty of veterinary and stockbreeding. At the beginning of studying I did the practice on the training farm of my lyceum. I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

Talking about languages I know I speak Ukrainian and Russian fluently. I speak also Polish and English. English is not excellent, but I am working on improving it every day. As for hobby, since childhood I have been playing football. I am hard-working and resistant to stress.

Now I want to go for practice to Denmark, because learning by doing is very important for professional becoming, especially if it is happening in one of the most advanced countries. I would like to work on a dairy farm. I would be thankful for the opportunity to work as a trainee on one of the Danish dairy farms.

Regards,

Oleksandr
