Other language(s)	English - Satisfactory, Russian - Perfect
Driver licence	
Equipment experience	
6. Hobbies and interests	
Watching travel shows and playing volleyball	
7. Job start date	
As soon as possible	

Autobiography

My name is Tetiana. I am 23 years old. I was born on January 25, 1997. I come from the village of Myliach, Rivne region. I am the only child in my family. My parents are retired. I am married already for 2 years. My height is 173 cm, my weight is 62 kg.

As I am a rural resident, I am used to the agricultural work. Since childhood I helped my parents in the kitchen garden, in the fruit garden and in the field. We have a lot of land where we grow different kinds of vegetables and fruits. We sell our crops and use for ourselves.

Recently I worked on the crop-production farm in Minsk, Belarus. My job was to care for and harvest cucumbers, green onions and tomatoes in greenhouses. I really like this work and for this reason decided to get the education in agriculture.

In 2019 I entered the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. I like studying there, as we have enough practice: I did the practice on the training farm of my lyceum. My responsibilities were connected with taking care of the plants, planting and transplanting, pruning and weeding, fertilizing the soil.

From July to October this year I did the internship on the berry-production farm in the UK. I was responsible for picking, sorting and packing berries (strawberries, raspberries, cherries, blueberries and blackberries).

I have the satisfactory level of English, but now I am in the process of improving it. Russian is perfect and Ukrainian is native. As for my personal qualities, I am a friendly and responsible person. I quickly learn something new, when I do some work I always try to do all my best. My main hobby is volleyball. I play it from school years.

The main purpose of the internship in Denmark is an experience. I really want to try my hand and skills in the field of crop production in this advanced country. As agronomy will be my profession, I want to get as much experience and knowledge as possible. I would like to work on the crop-production farm together with my husband Dmytro.

Regards,

Tetiana
