Other language(s)	English - Elementary, Russian - Perfect
Driver licence	Lorry, Car
Equipment experience	
6. Hobbies and interests	
Playing table tennis	
7. Job start date	
As soon as possible	

Autobiography

My name is Dmytro. I am 25 years old. I was born on August 10, 1995. I am from the village of Myliach, Rivne region. My family is very small: I have a wife Tetiana and older sister Iryna. My height is 180 cm, my weight is 70 kg.

At school I was the most interested in biology and volleyball. Now I am learning English because I want to gain experience working abroad in the field of agriculture, and for this I need good language skills.

Since childhood I helped my parents in the garden. We had a big kitchen garden where we grew potatoes, tomatoes, carrots, cucumbers, cabbage, greens, pumpkins, zucchini and so on. Also we had a fruit garden where we had apple, apricot, cherry and plump trees.

When I finished school, I entered the Chernivtsi Transport College and after graduating I worked in different places connected with repairing cars. But as I and my sister have a lot of land of our parents, I decided to get the agricultural education and set up our own crop-production farm growing organic crops.

In 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture. I am going to graduate in 2022, but before it I want to get the most innovative experience of farming. During the first semester I had the practice on the training farm where I was responsible for taking care of the plants, planting and transplanting, pruning and weeding, fertilizing the soil.

From July to October this year I worked as an intern in the UK on the berry-production farm, my responsibilities were picking up, sorting and packing berries (strawberries, raspberries, cherries, blueberries and blackberries).

Now my English is on the elementary level, but I am improving it. I speak also Russian. My native language is Ukrainian. I have driving license and can drive a car and a lorry. As for my personal qualities, I am a hard-working, reliable and responsible person. I really like to drive cars and trucks and repair them. Talking about my hobbies, I like playing table tennis.

Now I would be thankful for the opportunity to work as an intern on one of the crop-production farms in Denmark. This country is famous for its advanced agricultural sector and there are a lot of things to learn from. I want to work together with my wife Tetiana.

Regards,

Dmytro
