# Autobiography

---

My name is Vadym. I'm 26 years old. I was born on March 26, 1994 in the township of Karlivka, Poltava region. I have a small family. My mother Larysa works as an accountant in a local company and my brother is a student. I'm single.

My weight is 90 kg and height is 182 cm.

From early childhood I was accustomed to working in the countryside. I helped my grandparents in the garden and with livestock. They taught me how to water, feed the animals, prepare food for them and look after them in general.

In 2011 I finished secondary school and entered the law school. For some period of time I worked in the police station, but after a while I realized that work in this area was not to my liking and decided to change the profession.

In September of 2019 I became a student of the Novoselytsia Professional Agricultural Lyceum, the faculty of veterinary and stockbreeding, where I am getting good theoretical knowledge and practical skills in this field. During my studies I practiced taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

My English is good. My native language is Ukrainian and I perfectly speak Russian. Also I wish to learn Danish. I have a driving license and excellent driving skills as I drive cars from an early age. As a hobby, I like football, fishing and cycling.

Since I plan to connect my future life with work in the field of animal husbandry, I want to gain experience on one of the Danish farms, where I want to consolidate and work out in practice the knowledge that I got in the educational institution, and lay a reliable basis for my further movement in this area.

Regards,

Vadym
