Autobiography

My name is Oleksandr. I am 24 years old. I was born on 27 of October, 1996 in the rural town Letychiv. I am not married. My family consists of my parents, my brother and me. My parents keep the household, but earlier my mom worked as a sewer and my father worked as an electric welder. My brother lives in Kyiv and works as a fireman.

My height is 176 cm, weight is 65 kg.

From my childhood I live with my parents in the rural town where all residents live in the separate houses and have their households. We had a lot of chickens and pigs. Not far from us my grandparents live. My grandparents had a lot of field with potatoes and sugar beet, cabbage, corn. We always helped them grow crops.

In summer 2019 I worked as a seasonal worker on the crop farm in Germany where my responsibility was to pick up the strawberry.

In autumn 2019 I became a student of the Vocational Agrarian Lyceum on the faculty of agronomy and horticulture which is located in Khmelnytskyi region. There we combine learning theory and drilling the skills on practice. For instance, in the first semester of studying I did the practice on the training farm of the lyceum where I was responsible for taking care of the plants, planting and transplanting, weeding and pruning, fertilizing the soil.

Now I have satisfactory level of English, but I continue improving it. I can speak Russian perfectly. My native language is Ukrainian. Talking about my hobbies, I am interested in picking up mushrooms, driving, repairing cars, riding motorcycle. I have driving license and can drive motorbike, car and lorry.

Now I am looking for the internship in one of the most progressive countries – Denmark. I want to gain modern experience in horticulture and apply my knowledge on the practice. I would be thankful for the opportunity to work as a trainee on the crop-production farm.

Regards,

Oleksandr
