Mother tongue	
Other language(s)	English - Good
Driver licence	
Equipment experience	
5. Hobbies and interests	Reading books, listening music
6. Job start date	As soon as possible

Autobiography

First of all I would like to present some background about myself. My name is Sajib Bhuiyan. I was born on 24-th of June 1998 in Bangladesh.

My height is 179 cm and weight 60 kg.

I am from countryside. My family has got a family farm where I have taken part in care of our animals since my childhood. We have cows and I helped my parents with feeding, cleaning the barn and milking.

I studied at the college and during higher secondary studies I was the member of College Photography Club. It allowed me to develop and use my organizational skills. It was a good possibility for me to sharpen administrative skills and interpersonal relations.

Now I am studying at National Youth and Technical Training center, The department of Dairy, Poultry & Fisheries Management. We have a great team of lecturers and instructors and we get excellent knowledge every day.

I have English proficiency language Certificate. I can speak English well.

Now I am feeling that for future career growth I should enhance my academics. For me the best choice is something relevant to dairy farm management. I have found the internship program offered by Danish Government. I am strongly realizing that I have to sharpen my dairy administration skills, milk process management, and dairy working procedure.

I have decided to find a job in Denmark because I am sure it would strongly enrich my knowledge in dairy farm day to day work process and help me in my prospective career. Moreover I consider this job is a great opportunity to get in touch with Danish culture and agriculture system.

After completing my internship I will back to my country to continue my study.

Regards

Sajib
