Autobiography

My name is Mykola Prytuliak. I'm 25 years old. I was born on the 27-th of December 1991 in Zhmerynka town, Vinnytsia region. I grew up and studied at school in this town. My family is not great, my father is a builder, mother is a salesman, and an older sister is a medical worker. Now I live with my wife. I got married four months ago. We study together in Agrarian lyceum.

I studied at secondary school from 1999 till 2010. During my school years I was actively involved in sports. Of course, I also paid a lot of attention to study, my favourite subjects were History, English and Biology.

During the summer holidays I usually went to my grandmother, she lived in the village and had a small farm. In the village I had a lot of work, I helped my grandmother in the care of farm animals. I often helped to feed cows and sometimes fed pigs. I really enjoyed spending time with animals and spent time at the farm.

After school I was taken to the Army and served for some years, then after coming back I moved to my grandmother and stayed there helping her with her household.

In 2016 I decided to enter Agrarian lyceum, the faculty of veterinary. There I had practice at the training farm where I worked with pigs and cows. I fed animals, watered, cleaned up after them.

I speak English language and understand a little bit of Spanish. Also speak Ukrainian.

I have a driving license and can drive a car.

As for my hobby, I like music! I'm fond of music of the 60-s, like the Beatles, the Rolling Stones. The songs of the Beatles give me a lot of delight and pleasure. Sometimes I play different sport games for health and pleasure. I usually play such games as football volleyball and sometimes basketball.

I always wanted to get more experience working with animals. Now I'm looking for work with my wife Mariana Prytuliak abroad to get new knowledge and experience at one of livestock farms in Denmark.

Regards,

Mykola.
