Autobiography

My name is Mariana Prytuliak, I'm twenty five years old. I was born on April 29, 1992 in the town of Teplyk. I'm not the only child in my family, I have an older brother. His name is Volodymyr and he is 33 years old and works as an accountant. My father's name is Serhii, he works as a driver, my mother is Nataliia, she works at the office. Four months ago, I got married and now we live together with my husband.

In 1999 I went to secondary school № 2 in the town Teplyk. At school my favourite subjects were English, Biology and Mathematics. At school I was actively engaged in dancing and volleyball.

In my childhood and till now I have helped my parents in the household. I help my mother to care for her plants. I help my father in caring for domestic animals, such as pigs, cows and chickens, and I like this kind of work more than caring for plants, because I love animals very much.

I finished studying at secondary school in 2010. Then I tried myself at different jobs. I worked as a seller, as cleaner, I worked in the field and gathered berries.

In 2016 I began to study in Agrarian Lyceum, the Faculty of Veterinary. During my study I often had practice at different farms. They were livestock farms. At such farms, I learned to look after pigs and cows.

If I talk about my hobbies, I can say I have a lot of them, but most of all I like to listen to music of different styles, to dance and of course to play volleyball.

I can speak English, Ukrainian and Russian.

Then I decided that I want to become a farmer, but to become a farmer I have not enough experience. Now I am looking for work in Denmark. I need this work to take over the leading technologies of foreign farmers and in the future with sufficient experience to develop agriculture in Ukraine.

We made this decision together with my husband Mykola Prytuliak and together we are looking for work abroad.

Regards,

Mariana.
